Preventing Bedsores and Skin Infections

Regular sized wipes are ineffective when used as a shower replacement product. However, brand owners are hard pressed to find manufacturers that can produce large sized sheets as this can be a complicated process.

Our state-of-the-art machines are able to create generous large sized wipes that are a clear winner when it comes to creating a product for mobility challenged patients as it provide superior surface coverage that regular sized wipes are unable to. Your customers will love that your product is able to perform a thorough cleaning job on their loved ones.

Pair large, thick sheets with our SkinDfenz formulation to create a product that cleanses and sanitizes without stripping off its protective barrier.

PETS CARE RANGE

“ Our gentle formulations are SAFE TO USE EVEN ON SENSITIVE AREAS around the eyes and snout. ”

Best Option for Cleaning in Between Baths

Pets are precious and pet-owners can be selective when it comes to products that they use on their furry ones. Selecting a good quality formulation for pets can be challenging as most options in the market are laden with harsh chemicals that are great for creating that squeaky clean sensation but can lead to irritation and long-term skin problems for animals.

Our proprietary formulations for pets are created without harsh chemicals so you can offer a premium quality solution to your customers that is safe to be used even on sensitive areas around the eyes and snout without causing any irritation to furry ones.

Global Shipping & Supply Chain Network

We can ship our wet wipes to all parts of the world. This means you can count on us to deliver your order, no matter where you are in the world. We have a global network of warehouses and shipping partners that allow us to get your order where it needs to be quickly, safely, and reliably.
